MEMORANDUM FOR: [REDACTED] 25X1
Director of European Analysis

THROUGH : Chief, Security Issues Branch
Chief, European Issues Division

FROM : [REDACTED] 25X1
Security Issues Branch

SUBJECT : Meeting with Department of State Officials 25X1

1. Dr. Bob Osgood, State Department Policy Planning Council, telephoned me to request a meeting to discuss Franco-German defense policy questions. On 24 April, [REDACTED] and I met with Osgood and two other members of the Policy Planning Staff (Barry Lowenkron and Hugh De Santis). 25X1

2. Osgood was seeking information on Franco-German defense cooperation in preparation for an upcoming trip to Europe when he will be discussing efforts to improve NATO conventional defense capabilities. He was particularly interested in our discussion of the following topics:

- o Franco-German arms cooperation projects.
- o Joint Franco-German military planning.
- o Franco-German efforts to coordinate European defense policy.
- o West German interest in French and UK nuclear planning policy.
- o Chancellor Kohl's concern over West German sovereignty in matters of defense interest.
- o Political symbolism of Franco-German military cooperation.
- o French and West German defense budget planning.

~~CONFIDENTIAL~~

CONFIDENTIAL

Throughout our briefings, Osgood expressed agreement with our differentiation between government statements made for public consumption and those which reflect serious policy considerations.

3. Osgood described a very rosy picture of US-European relations during his 6 April presentation at the NIO conference. Today, he seemed a little more cautious. He is of the opinion that extensive European cooperation still seems unlikely, but if the Europeans do band together, it would likely be of little benefit to the US.

4. The meeting lasted approximately 90 minutes.
